About the Program

Welcome

Home

- Welcome Home provides support and education to patients who have been recently diagnosed with hypertrophic cardiomyopathy or who have been recently hospitalized.
- The goals of Welcome Home are to assist patients in their recovery, improve patient outcomes, increase quality of life, and reduce hospital readmissions.

Benefits of Peer Support

- ✓ Reduces feelings of isolation and depression in people managing chronic conditions.
- ✓ Improves physical health including decreasing visits to the hospital and emergency room.
- ✓ Increases disease knowledge, understanding of disease education, ability to manage heart disease and reduce risks.
- ✓ Improves understanding of medications and why it's so important to take them as directed.
- ✓ Creates more confidence in making decisions, communicating with healthcare professionals and problem solving.
- ✓ Provides social support so patients are more likely to stick to lifestyle changes and treatment plans.
- ✓ Creates meaningful connections that improve health and increase a sense of belonging and well-being.
- ✓ Helps patients recognize and address family and community health issues.
- ✓ Increases access to health information and resources for ALL people—reducing disparities.

Welcome Home Hypertrophic Cardiomyopathy (HCM)

Welcome

In this 6-week program, you will receive:

- Weekly emails with helpful information, tools, tips and resources.
- Peer support calls every other week from a trained patient who has HCM.
- Ongoing support through our Heartline peer support line.

Program Overview

Get home and stay home with support and education from those who have been there.

- **Week 5:** Communicating with their healthcare team.
- **Week 6:** Thank them for participating, encourage them to take the survey, let them know how to get ongoing support.

Peer Support Call Steps

How to join Welcome Home

A screenshot of a web browser displaying the 'Welcome Home' page on the MyHeartVisit website. The browser's address bar shows the URL 'https://www.myheartvisit.org/welcome-home-transition'. The website's header is blue and contains the MyHeartVisit logo on the left, which includes the text 'MyHeartVisit' and 'PEER SUPPORT FOR PATIENTS & FAMILIES' next to a red heart icon. To the right of the logo are navigation links: 'Request a Visit', 'Welcome Home' (which is underlined), 'Education', 'Join Us', and 'Communities'. A white 'Donate' button is located on the far right of the header. The main content area features a large photograph of an elderly woman with short white hair and glasses, wearing a yellow shirt, sitting on a couch and reading a book. Overlaid on the bottom half of the photograph is the text 'Welcome Home' in a large, white, sans-serif font, and below it, in a smaller white font, is the text 'Let us help you stay home with a program just for you!'.

Welcome Home HCM

Welcome home! We know you're happy to be out of the hospital, but coming home can feel a little scary. There's a lot to remember about your health, medicines, and treatment, and it can feel like too much. But don't worry, we're here to help.

Our MyHeartVisit® Welcome Home Program gives you helpful emails each week, along with emotional support. Plus, a friendly supporter will call you every other week for 6 weeks to check on you as you recover. And the best part? It's totally free for heart patients, parents, and caregivers!
